## **Faith and the Church**

(How do we practise our faith?)

Thoughts from the Synod

‘For many young people, faith has become private and not easily shared.’

‘Unfortunately, in some areas of the world, young people are leaving the Church in large quantities.’

‘Young people could attend, participate in, and leave Mass without experiencing a sense of community or family as the Body of Christ.’

‘Young people have difficulty finding a space in the Church where they can participate and lead’

‘If it is difficult for young people to feel a sense of belonging and leadership in the Church.’
